HISTORY

C. Cini Mfg Ltd was set up way back in 1931 by founder Carmelo Cini.

From humble origins producing ground pepper and split & polished beans, today we supply one of the leading brands in Malta, which is a food staple in all Maltese kitchens. With over 90 years of experience, three generations of entrepreneurship and traditional knowhow, the company is still a dynamic family-run business, with its main focus is manufacturing and packaging its own products, Lamb Brand and Vita Natura. We also offer high quality private labelling for exclusive clients who entrust the company.

Due to rapid and potential growth, the company invested in new machinery and packaging systems to take on the challenge to expand sales on a wider scale. Nowadays, C. Cini Mfg Ltd offers a wide and varied range of products and it is always expanding according to the markets' needs. The company is keeping a steady growth through the ever-increasing list of new products and the upgrading of the already established ones.

We look at our future with optimism and we are always on the lookout for new suppliers, clients and markets. We invite you to visit our website and our socials to discover more about our products.

Walnuts in Shell

HAZELNUTS

Only a few nuts contain vitamin A, and hazelnuts are among them. Vitamin A is a natural antioxidant and has cancer-preventing properties.

PINE NUTS

Pine nuts are the primary ingredient in the making of Pesto Sauce along with basil, garlic, olive oil and Parmesan cheese.

PEANUTS

Peanuts are one of the most popular nuts which are a great source of protein.

CASHEW NUTS

Cashews contain more iron per gram than rump steak.

APET TRAYS

Vacuum sealed for a longer shelf life.

ALMONDS

Almonds offer more fibre, protein and other nutrients than any other nut!

PISTACHIOS

Avoid fully closed shells, which indicates that the nutmeat is immature.

WALNUTS

Walnuts have always been considered important for their medicinal properties, including curing bad breath, reducing inflammation, and healing wounds.

DISTRIBUTION & EXPORT

Delivering goods to all our customers in a timely efficient manner is no easy job, considering the vast range of products we offer. Thanks to our logistics team, we are able to deliver the right product at the right place on time.

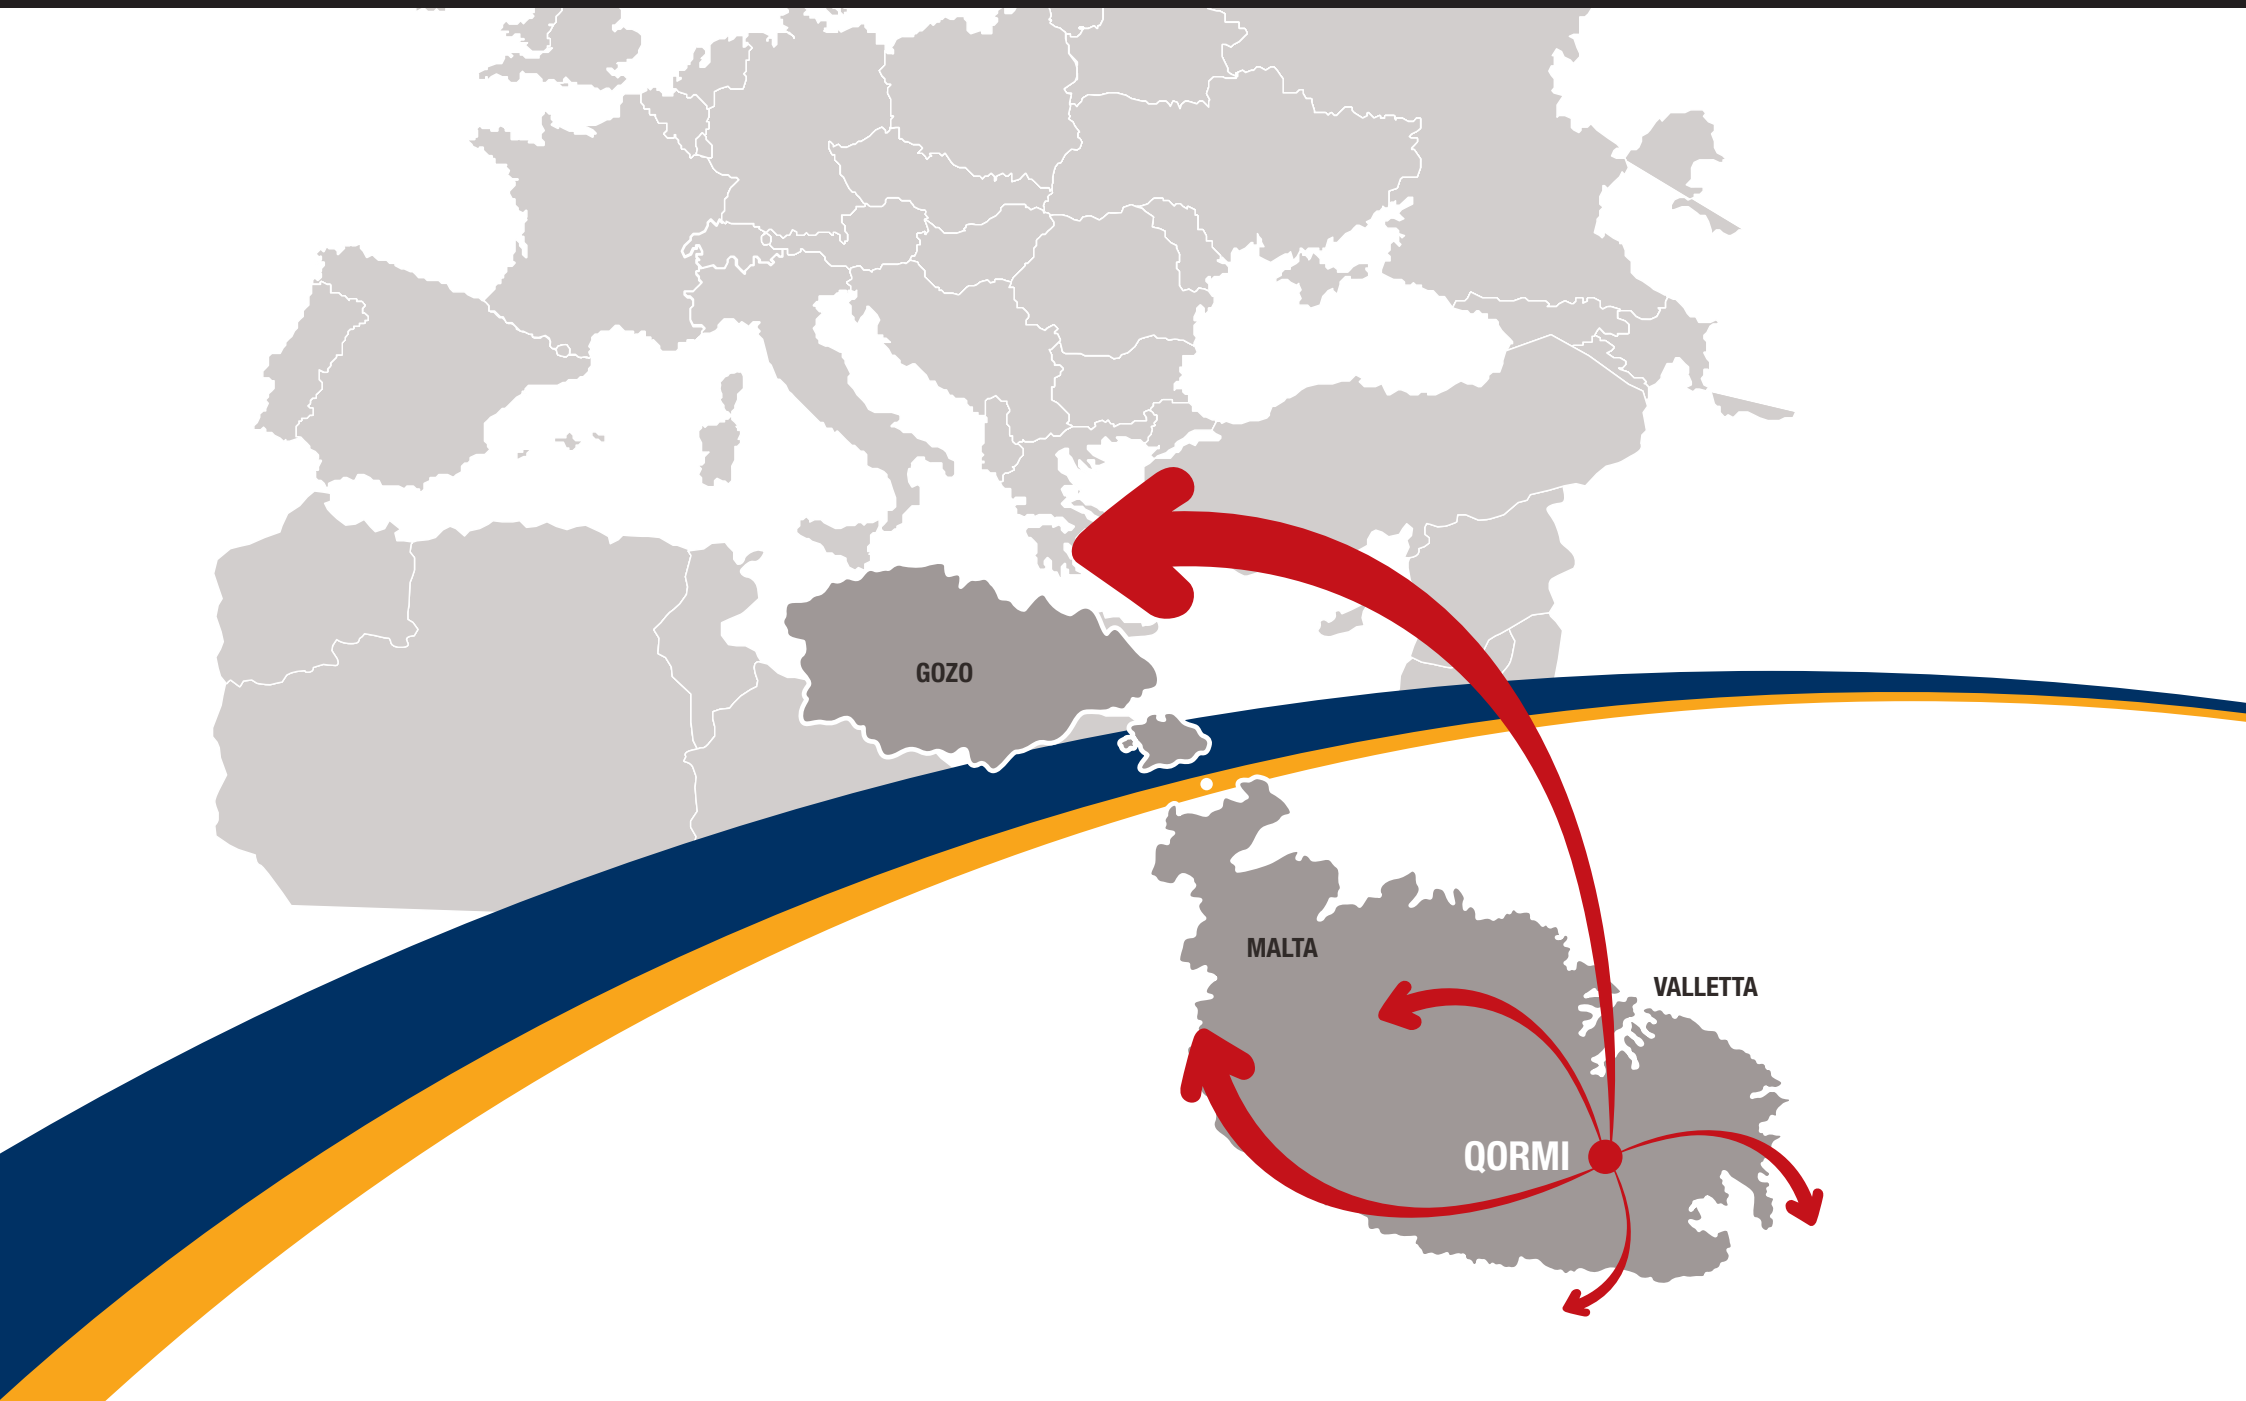

Our distribution fleet consists of 10 trucks which are used for deliveries to clients across the Maltese islands. Our sales team, composed of 11 representatives, travel across Malta and Gozo, to serve our clients and collect orders where we offer next day delivery.

Aided with the latest office software and a team of committed personnel, the Logistics department is the key to our company's success.

Since we truly believe in our brand, we are seeking to expand further and reach offshore markets. Throughout these past years we participated in international fairs to promote our products where we have been successful in obtaining the Greek, Sicilian and Libyan markets.

We pursue our success by continuing to strengthen our growth and reach further export markets.

*Growing together and stronger
for the past 90 years.*

Our Brands' success is thanks to hard work and innovation.
We always seek to continuously improve and create new
recipes & mixes that suit today's active lifestyle.
